Outcomes

Continue to feature guest artist lecturers and special arts events.

Enrich students' arts education by providing students an opportunity to view on and off campus exhibits of professional works of art.

Develop students' respect for craftsmanship and image development through the study of fundamental techniques and theories which influence the standards for all art disciplines.

Encourage the process of conceptualizing and conveying ideas within the context of their own art work.

Introduce students to the influences of the history of art throughout all media being studied, featuring past and present artists and their works.

Develop students' abilities to analyze, interpret, and evaluate visual images.
