

ART + DESIGN PROGRAM (CODE AFA 40380)

Delta College - Associate in Fine Arts
Catalog Year 2010 - 2011

The Associate in Fine Arts Degree is offered as an Art Track and Design Track. Basic program requirements are the same for both tracks; therefore, you will select one or the other at the end of your first year. Both programs begin to prepare you for a creative career in any of the following areas: art education, art history, art theory and criticism, ceramics, design, digital imaging, drawing, graphics, painting, photography, printmaking, sculpture, or a wide variety of other visual art fields. You may choose to begin your career after obtaining your A.F.A. degree or you may choose to transfer to a four-year college or university to pursue advanced degrees in Art or Design. Bachelor of Arts (B.A.), Bachelor of Fine Arts (B.F.A.), Master of Fine Arts (M.F.A.), or a Ph.D. in Art History, Art Theory, or Art Criticism are some of the more advanced degree programs available throughout the country.

As an artist, you will generate your own ideas and realize your work in one or more media. You may participate in local, regional, national, and possibly international exhibits. Your work might be shown in galleries, museums, and/or on Internet galleries. You may generate income from private sales of your work and/or from public works projects in places such as airports, public museums, and county, state, or federal buildings.

As a designer, you will either be self-employed or employed by a company in any of the following areas: advertising, animation, automotive, displays, fashion, furniture, graphic design, industrial, movie prints, textiles, video or web design. You may design any number of other commercial or Internet products.

As an art educator, you will pursue an Art Education degree and teach art to K-12 students. If you are interested in teaching at the college level, you will first pursue an M.F.A. in Art or Design, a Ph.D. in Art History, or a combined advanced degree. As an art critic, theorist or historian, you will research and write about art and events in the art world for newspapers, magazines, books, educational institutions, and other venues.
