

PRE-BACHELOR OF SCIENCE IN NURSING (BSN) (CODE AS 40000)
Delta College Transfer Program
SAGINAW VALLEY STATE UNIVERSITY

THIS PROGRAM SHEET IS DESIGNED FOR THOSE STUDENTS WHO ARE NOT PLANNING ON RECEIVING AN ASSOCIATE DEGREE IN NURSING (ADN) FROM DELTA and contains courses that may be completed at Delta prior to transfer, including MACRAO and six traditional "W" credits as well as 9 of 10 General Ed. Categories (see back of this sheet). If selected courses are not completed, additional prerequisites may be required at SVSU to apply to Nursing**

The Department of Nursing offers an interdisciplinary major of which a minimum of 67 credits are from nursing courses (NURS). The credits of the major contribute to the minimum of 124 credits the university requires for graduation. The remaining credits consist of courses from general education requirements, natural and behavioral sciences and electives.

Transfer credits for nursing courses and/or waiver of nursing major requirements are considered on an individual basis by the department of Nursing.

Admission Process for Basic Students

Students should apply to the Bachelor of Science in Nursing (BSN) program when they anticipate completion of required nursing prerequisite courses prior to the fall or winter nursing application due date. All required nursing prerequisite courses must be completed with a grade of "C" (2.0) or better; only one required nursing prerequisite course may be repeated, and that course may only be repeated one time. All required nursing prerequisite courses must be completed or in progress during the nursing application process. All required nursing prerequisite courses in progress during the application process must be completed with a grade of "C" (2.0) or better, and all other nursing program selection criteria prior to enrollment in nursing courses. Applications must be submitted in their entirety, and are due the third Monday in October for winter selection or the third Monday in April for fall selection. Only complete applications, submitted by the deadline, will be considered. Students admitted to the BSN Nursing Program will be chosen by a selection committee using current selection criteria.

Eligibility and Selection

Eligibility for applying to the nursing program will be based upon grade point average. To be eligible for consideration, a student must have a minimum 2.50 cumulative GPA and a 2.50 GPA in required nursing prerequisite courses. In computation of the cumulative GPA, all retake grades will be calculated. In computation of the GPA for nursing prerequisite courses, only one retake grade will be calculated. Eligible students will be interviewed and may be required to complete a writing sample. Scores from the interview and writing sample will be calculated as part of the ranking for selection. In addition, the number of SVSU credits successfully completed will be considered.

Many courses have prerequisites. See current course description booklet. <http://www.delta.edu/catalog/courses.asp>
