

FINDING GOVERNMENT RESOURCES

Winter 2007

As a federal **Depository library**, we receive many publications issued by agencies of the U.S. Government. These publications include books, maps, posters, pamphlets, and periodicals, and contain information on careers, business opportunities, space exploration, health and nutrition, energy, and many other subjects. Federal government publications in this collection are arranged by the **Superintendents of Documents** classification number. Publications are grouped together by **issuing agency**. To ensure that you find all of the materials available on a particular subject, be sure to check the indexes recommended by the librarians. This example shows how the Superintendent of Documents classify number C 61.34: 987 is constructed for the publication ***U.S. Industrial Outlook***:

C	61.	34:	987
Commerce Department (issuing agency) (subordinate bureau within the agency)	International Trade Administration	Number designating the title Publication	Year of (1987)

Here are the **prefixes** from the Superintendent of Documents classification numbers for some other issuing agencies that you may be interested in:
