

## SNACK...THEN GIVE BACK

**Outsmart Your Waste. Turn your favorite snack into an eco-friendly product.**

It's easy:

Enjoy a snack from Delta College Food Services or vending:

- (Frito Lay) Lays, Doritos, Cheetos, Fritos, Sunchips, Baked!
- (Mars) Snickers, Skittles, M & M, Twix
- Oreo, Dentyne

- 1) Drop your empty bag or wrapper into a collection box (vending areas)
- 2) Eco Reps send the bags and wrappers to TerraCycle
- 3) TerraCycle upscales them into fun recycled products! (TerraCycle creates affordable, eco friendly products from a wide range of waste products.)
- 4) College trash is diverted from our waste stream—reducing our disposal cost and carbon footprint!

## PLANT IT FOR THE PLANET

**You eat the chips. The earth eats the bag.**

Frito Lay introduced the world's first ever 100% compostable chip bag designed to fully decompose in about 14 weeks. The new snack bag, made with plant-based polylactic acid, is available in Delta College Food Services and vending machines. As if snacking between meals wasn't enough fun, now you can contribute to exciting research in our campus greenhouse by donating your empty snack bag. Students will use the biodegradable SunChip bags to study, demonstrate, and evaluate decomposition rates, biological environments, and degradation using chemical environments.

Delta College is committed to creating a better world through our sustainable efforts and you can help! It's easy:

- 1) Enjoy a bag of SunChips from Delta College Food Services or vending
- 2) Drop your snack bag into a collection box located at vending areas
- 3) Sustainability Eco Reps deliver the bags to the Delta College greenhouse
- 4) Science students use the bags for small scale science projects and research
- 5) Trash is diverted from the college waste stream reducing our disposal cost and carbon footprint!
