

Delta College Library Instruction Mission

To support the curriculum offered at Delta College with library instruction which addresses specific assignments, while incorporating the objectives of information literacy.

To involve librarians and faculty members jointly in the creation of information literacy-based experiences, which are woven into the fabric of the course.

To promote lifelong information literacy in each student.

To acquaint students with the organization of information in their field of study.

To provide students with a balance of electronic and print resources that support individual assignments.

To provide students with active learning experiences in the library.

To help students build information literacy skills in increasingly sophisticated ways as they continue through their college curriculum.

The Delta College Library Instruction Program is based on our "Student Learning Outcomes for Information Literacy" in accordance with national standards.
