Understanding the status of your registration in Student Planning
Your Winter 2023 semester enrollment can likely be categorized in one of the following ways:

- No courses planned
- Courses planned, not registered
- Sections planned, not registered
- Registered

We know that sometimes what you see in Student Planning can be confusing. Let us help make sure that you’re fully registered for the Winter semester!
Please visit https://ss.delta.edu/Student/Planning then click “Go to Plan & Schedule”

The “Course Plan” tab will display what (if any) courses & sections you have planned and/or registered for
Uh oh! It looks like no courses have been planned yet for the Winter semester. You can add courses yourself or schedule an appointment with your Student Success Advisor for assistance.
Courses planned, not registered

- You or your Advisor have put courses on your plan but you still need to select your desired sections and complete your registration.

Notice that “No Section Selected” is displayed under Instructor, Time and Location.
Your desired sections have been selected but you haven’t yet hit the “Register Now” button

Notice that a section is listed but there are 0 enrolled credits; no text displayed underneath the section (this area will show “Registered, not started” once enrollment has been completed)
Registered

- Congratulations! You are enrolled for the Winter 2023 semester!

You should see “Registered, but not started” underneath each of the sections you intend to take.
Your Student Success Advisor is happy to answer any questions you may have!
