PRESIDENT'S REPORT

Enrollment Report

Classes for the Fall 2019 Semester began on August 24. As of today, 7,817 students are enrolled (5,074 part-time, 2,743 full-time).

The College projected 79,368 credit hours for the fall semester and are currently at 104.05% (82,579 credit hours) of projection.

Personnel Report

The complete report of hires, promotions, and separations for the month of September can be found in Board packets this evening.

This evening in the personnel report, Trustees will see that 13 of our general laborer positions have been transitioned to full-time. Dr. Goodnow explained the change.

The Facilities Department has a budget for a set number of work hours for the third shift general laborers. The College has been utilizing a model which would allow for approximately 25 individuals to work in these positions up to 24 hours per week.
The College has not been able to staff the 25 positions. As a matter of fact, we have had a tremendous amount of turnover and were operating with only about 13 to 15 part time positions filled at any given time.

Nick Bovid, our Director of Facilities Management, was able to work collaboratively with the AFSCME Union Leadership and HR to find a solution to best serve our students and the College. Without eliminating any positions, we were able to convert the 13 general laborers on staff to full-time status.

This move is cost neutral to the College. It may result in long-term savings. The benefits package that we are offering these employees is different than the benefits package offered to other staff in Facilities and Maintenance and is a lower cost to the College, but again, we are able to offer these general laborers benefits and full-time status as a result of this change. This was done working with the union leadership.

Dr. Goodnow said she believes it illustrates our commitment to valuing people and to the success of our students.

At last month’s Board Meeting, the Board heard comments from one of our English adjuncts, Lula Woodard. As a result of Lula’s comments, several Board Members asked for an information update on our adjunct faculty.

We are working to collect updated data regarding our adjuncts – including a salary survey and information on adjunct satisfaction.

Dr. Goodnow said she will bring a presentation to the Board in November regarding our adjuncts.

Of those 20 graduates, 14 were inducted into the Phi Theta Kappa Honors Society on September 13. Dr. Goodnow said she is proud of the accomplishments of these students and of the success of this program.
